Mrs. Ray P. Chase- originated by Dr. D. R. Miller of Bird Island.
A cream white glad about 4 ft high, with 6 to 8 open at once and measuring 6 inches across. This glad is strong and vigorous and is a good propagator. I have observed it for 3 years and it is the best and largest cream white that I have seen. Very little flaking with us and we have found it much superior to Mammoth White. A real addition to your glad list. Can furnish photo if desired. 15.00
I am open to trades on this list for new glads, other plants or flowers that I can use. In fact will consider anything that I can profitably use.
